## Place value and Value of Digits (Questions)

| Question 1                                       |                                    |  |
|--|------------------------------------|--|
| What is the value of the underlined number? What | is the place value of this number? |  |
| 543534.5 <u>6</u>                                |                                    |  |
|  | Place Value =                      |  |
|  | Value of the digit =               |  |
|  |                                    |  |
| Question 2                                       |                                    |  |
| What is the value of the underlined number? What | is the place value of this number? |  |
| 23 <u>4</u> .45                                  |                                    |  |
|  |                                    |  |
|  | Place Value =                      |  |
|  | Value of the digit =               |  |
|  |                                    |  |
| Question 3                                       |                                    |  |
| What is the value of the underlined number? What | is the place value of this number? |  |
| 1 <u>2</u> ,345,234.45                           |                                    |  |
|  |                                    |  |
|  |                                    |  |
|  | Place Value =                      |  |
|  | Value of the digit -               |  |

| Question 4                                       |                                    |
|--|------------------------------------|
| What is the value of the underlined number? What | is the place value of this number? |
|  |                                    |
| 34 <u>5</u> ,234                                 |                                    |
|  |                                    |
|  |                                    |
|  |                                    |
|  |                                    |
|  | Place Value =                      |
|  | Value of the digit =               |
|  |                                    |
|  |                                    |
|  |                                    |
|  |                                    |
| Question 5                                       |                                    |
| What is the value of the underlined number? What | is the place value of this number? |
|  |                                    |
| <u>1</u> 2,199,234.45                            |                                    |
|  |                                    |
|  |                                    |
|  |                                    |
|  | Place Value =                      |
|  | Value of the digit =               |
|  |                                    |

| Question 6  |                                    |  |
|---|------------------------------------|--|
| What is the value of the underlined number? What is the place value of this number? |                                    |  |
|   |                                    |  |
| 12,199,234. <u>4</u> 5  |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   | Place Value =                      |  |
|   | Value of the digit =               |  |
|   |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   |                                    |  |
| Question 7  |                                    |  |
| What is the value of the underlined number? What                                    | is the place value of this number? |  |
| 12,199 <u>,2</u> 34.45  |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   | Place Value =                      |  |
|   | Value of the digit =               |  |

| Question 8  |                                    |  |
|---|------------------------------------|--|
| What is the value of the underlined number? What is the place value of this number? |                                    |  |
| 345,679.475 <u>4</u>  |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   | Dia sa Value                       |  |
|   | Place Value =                      |  |
|   | Value of the digit =               |  |
|   |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   |                                    |  |
| Question 9  |                                    |  |
| What is the value of the underlined number? What is the place value of this number? |                                    |  |
| What is the value of the underlined hamber. What                                    | is the place value of this hamber. |  |
|   |                                    |  |
| 345,6 <u>7</u> 9.4754   |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   |                                    |  |
|   | Place Value =                      |  |

Value of the digit = \_\_\_\_\_

## Question 10 I am thinking of a number. The digit in the hundredths place is 4. The digit in the hundred's place is 3. The digit in the unit's place is 3. The digit in the tenths place is 8. The digit in the tens place is 2. What number am I thinking of?

Answer: \_\_\_\_\_
